

Atradius

Managing risk, enabling trade

Atradius Bonding

Bonds are an important part of your business

A bond is an agreement which -subject to its terms and conditions- provides monetary compensation to the Beneficiary in case the primarily obliged party, the Principal (our Customer) fails to meet its contractual or legal obligations.

Atradius Bonding is present in 11 European markets: France, Italy, Sweden, Denmark, Finland, Norway, Spain, Germany, the Netherlands, Belgium and Luxembourg. We are a leading Bonding provider in those markets delivering expertise, international orientation and customization. We are also able to issue bonds from a variety of other European countries. Atradius Bonding is:

- The first Bonding provider to offer a web-portal in France and Spain. Our web-portals are a key element in our customer relationship management
- One of the top three specialized Bonding providers in Italy
- A leading Bonding provider in Spain with more than 85 years of experience in the market
- A major Bonding player in the Nordic market
- Expanding our presence in the European market

Are you looking for a unique Bonding partner able to support your business both locally and internationally? Atradius is a multinational bonds provider with local service orientation. At Atradius Bonding we:

- think globally and act locally
- provide master policies combined with local services to large multinational companies
- have long standing Bonding expertise and market knowledge to adapt to your needs
- maintain customer focused culture
- are able to tailor the Bonding product to fit your needs

Our Bonding products

Atradius Bonding works with different industries and maintains relationships with a large range of companies by providing niche products, online services and know-how to our customers. Atradius Bonding offers more than 400 types of bonds. Our standard products include:

Bid bonds

Precondition to participate in public or private tenders. If a tender is awarded, the bid bond guarantees to the Beneficiary the ability of the Contractor to enter the tendered contract with its conditions and specifications.

Advance payment bonds

Guarantee that the Contractor will repay the Beneficiary any funds the contractor received in advance, if delivery or performance does not take place.

Performance bonds

Guarantee to the Beneficiary that the Contractor will carry forward a contractual performance as agreed under specified conditions (price, period, quality).

Maintenance bonds

Guarantee the Beneficiary against defective workmanship or materials (according to contractual obligation) after delivery and acceptance of work or goods provided by the Contractor.

Custom bonds

Assure custom authorities (the Beneficiary) that an importer (our Customer) will pay the duties required.

Payment bonds

Relate to an underlying contract, whereby there is a party receiving a benefit (our Customer) such as goods, rights or services with compensation to be paid to the ceding party (the Beneficiary). Our bonds cover the non-payment of the compensation.

Compliance and other commercial bonds

Mandatory to exercise a business in a specific trade sector or related to individual business operations, generally covering the risk that our Customer is not operating in compliance with specific legal requirements.

Judicial bonds

Provided to a public Beneficiary (e.g. Tax Authority) in order to interrupt the immediate effects of an enforceable legal act.

EU bonds/Contribution bonds

Secure the proper utilization of funds received from public bodies in order for an entity to accomplish specific activities.

Your benefits

- Reassuring your partners your ability to meet your commitments (obligations)
- A wide range of Bonding products that may help to strengthen your contractual or legal obligations towards your counterparties
- A financially sound guarantor with many years of experience and a good risk profile
- Strong ratings from A.M. Best and Moody's
- Increased liquidity and flexibility. No impact on your bank limits
- Quick and easy handling of your Bonding needs
- Tailor-made advice and flexibility in the Bonding policy wording

In addition, Atradius offers...

- a wide range of products and services offered by our specialized trade credit insurance, credit risk management and business debt collections providers
- access to databases with information on over 240 million companies worldwide
- a worldwide distribution network with 160 offices in more than 50 countries
- support of your credit facilities with your bank
